## Objective

---

Computer Science graduate specializing in Data Science, seeking an entry-level Software or Data Analyst role. Proficient in Java, Python, SQL, and web development, with hands-on experience building data-driven applications and solving Data Structures and Algorithms problems. Strong foundation in data analysis, programming, web applications and problem-solving.

## Education

---

- |                                        |                         |
|----------------------------------------|-------------------------|
| • <b>Mohan Babu University</b>         | 2022 – 2026 (Graduated) |
| B.Tech Computer Science (Data Science) | CGPA: 8.9               |
| • <b>Sri Chaitanya Junior College</b>  | 2020 – 2022             |
| MPC                                    | 96.5%                   |
| • <b>Sri TLNM School Badangi</b>       | 2020 Passed Out         |
| SSC                                    | 95%                     |

## Technical Skills

---

- **Programming Languages:** Java, SQL, Basics of Python
- **Core Concepts:** : Object-Oriented Programming (OOP), Data Structures and Algorithms, DBMS, SDLC
- **WebDevelopment:** HTML, CSS, JavaScript
- **Data Analysis and Visualization:** Excel, Data Transformation, Data Visualization, Power BI, Tableau
- **Databases Tools:** MySQL, Git, GitHub, VS Code

## Projects

---

### Personal Portfolio Website

- Designed and built a responsive single-page portfolio website using HTML, CSS and JavaScript.
- Implemented mobile-first layout to ensure optimal viewing experience on desktop, tablet and mobile devices.
- This website contain some of my projects, all my social links, my academic journey.

### Data Analysis Visualization | Excel, Tableau Power BI

- Cleaned, transformed, and analyzed sales data using Excel and Power Query to identify trends, patterns, and KPIs.
- Developed interactive Power BI and Tableau dashboards to visualize sales, revenue, profitability, and regional performance.
- Created KPI reports and data visualizations to communicate insights and support data-driven decision-making.

## Certifications & Internships (AICTE approved)

---

- |                                                                                       |             |
|---------------------------------------------------------------------------------------|-------------|
| • <b>EduSkills</b> – Java Full Stack Developer Virtual Internship                     | Certificate |
| • <b>Google for Developers by EduSkills</b> – AI & ML Virtual Internship              | Certificate |
| • <b>Apex Planet</b> – Web Development (HTML, CSS, JavaScript)                        | Certificate |
| • <b>EduSkills in Collaboration with APSCHE</b> – Google AI-ML & AWS Data Engineering | Certificate |

## Activities & Achievements

---

- Solved 165+ Data Structures & Algorithms problems on LeetCode (ongoing).
- **Co-Author** – Published Book: Intelligent Crowd Analysis and Risk Prediction : published by Jack Sparrow Publishers
